

SKYCITY CINEMAS Metro Complex

LOCATION
Queen Street, Auckland

ARCHITECT
Walker Architects

www.amstar.co.nz

As part of the SKYCITY Cinema Metro Complex, which features seven standard cinemas, Amstar carried out a specialised fitout of the complex's two Gold Class theatres. These upmarket theatres feature luxurious seating and full kitchen-and-bar table service.

The project was like a fitout within a fitout with Amstar managing the key contractors and ensuring the project was completed on time and to budget.

The subsequent client feedback on this project was very positive.
